

ANNAS CAULDRON
HIGH PRIESTESS

TO PLANT A WISH

Perform on a waxing moon

You will need

A pot of earth

Edible seeds to grow

A piece of paper

A black pen

Method

Write your desire on the paper and fold it three times. Place inside the pot. Put the seeds just beneath the soil and cover. Tell the seeds that as they grow so will your wish! Don't forget to water and care for your plants. Every time you look at your seeds growing think of your wish.

The more effort that you make the better your spell will work. When you harvest your seeds and eat them the Magic becomes part of you.
